

JPE Inc. Consulting Awarded Tri County Computers Contract

Premier South Florida Information Technology and Managed Professional Services Firm Expands their Service Reach with an Enhanced Marketing Program from JPE Inc. Consulting

Cape Coral, FL (August 31, 2009) – JPE Inc. Consulting, a global provider of Technology Marketing and Business Consulting Services today announced its new relationship with Tri County Computers (TCC). JPE will be working closely with TCC on numerous branding and product/service launch initiatives beginning in the Fall of 2009, starting with a renovation and enhancement of its corporate website.

“We’ve been providing the growing businesses and technology users of South Florida with computer and networking support services for over a decade,” said TCC President Mike Jones. “Of all the marketing services choices available to us, we’re very happy to have chosen JPE Inc. Consulting to help us substantively expand our marketing reach, increase our visibility, and to open new doors for the many new product and professional service launch initiatives that we currently have planned.” Mr. Jones went on to say, “We’re confident that the remainder of 2009 and throughout 2010 and beyond is going to be a period of dynamic growth for us.”

Robert Gelinas, CEO of JPE added, “We are extremely honored to have TCC as a valued new client, and to have the opportunity to help more people learn of TCC’s remarkable depth of certified technology expertise, professionalism, and their uniquely people-friendly and personal approach to customer service. I personally know this to be a fact, as our company is also a client of theirs, and we quite simply wouldn’t trust our IT support to anyone else.”

About JPE Inc. Consulting:

JPE Inc. Consulting is a Creative Marketing Services, Business Modeling and Consulting firm, focusing primarily on Technology Start-Ups, Early-Stage, and Growth-Oriented companies. JPE provides technology firms with Virtual Marketing On-Demand (VMOD), which serves to help them define and refine their vision and value propositions, and then design and implement their go-to-market strategies.
